1. Release Notes: SafeCentral IE 3.1.21.3897

This release of SafeCentral completes integration with BankID (Swedish Financial Market) as well as copy/paste between Secure Desktop and Windows Desktop. Stability issues with Windows 8.1 have been addresses as well as many issues with the Updater. Residual Telstra Online Security branding bugs are also dealt with in this release (Telstra Brand Only).

This version has been released for the flowing Brands

- 3424 – Enterprise
